Taiwan Farm

Travel Map

Enjoy Leisure And Experience Happiness

Taiwan Leisure Farms Development Association

The Taiwan Leisure Farms Development Associaton(TLFDA) was founded by the owners of leisure farms as a non-profit organization in 1998 under the Civil Association Act, so as to assistupgrading the agriculture into leisure farms in line with the goal of LOHAS development, at thesame time to serve as the bridge connecting the academic, government and the industrytogether promoting the development of leisure agriculture in Taiwan. Moreover, while drivingthe development of agricultural economics forward, the TLFDA also carries the responsibilitiesassociated with social education and environmental protection, assuring stability andsustainability of farming villages to create greater social values. We at TLFDA sustain the valueof farming villages, share their knowledge, and pass on the power of happiness, inspiring toshape Taiwan's farms into travel destinations and transforming them into lifestyles of choice.By doing so hopefully youths will return to the country, farmers may regain their pride, andrural villages continue on with their culture. Everyone may "enjoy leisure and experiencehappiness."

the mascot of Taiwan Leisure Agriculture

White Egret

Egret is a good partner of farmers, because it has been quietly guarding the agricultural development of Taiwan. Farmers know that there must be a fertile field where there are egrets, and there must be egrets in countries of good ecological environment.

In our eyes, white egret symbolizes as the guide of agricultural tourism. It leads us to rediscover the sincerity and thickness of countryside, to regain the good time of rural life, and experience the happiest green life.
